

FOR IMMEDIATE RELEASE

RGM Releases First New Model for 2018

(USA, Mount Joy, PA) February 6, 2018

RGM has announced a new model in its watch lineup – RGM Model 350-TZBD “Timezone Big Date.”

This model is designed to be the perfect travel companion. It features a second time zone at the bottom of the dial and a big date centered for quick reference. The black dial is easy to read at a glance with Super-Luminova markers at each hour. Super-Luminova filled sword hands optimize readability. The watch is powered by an automatic Swiss movement with timezone and big date module.

About RGM

Since 1992, RGM Watch Company has provided quality, luxury and complicated timepieces to a variety of clientele. Located in historic Lancaster County, Pennsylvania, RGM is the only watch company to produce a high-grade mechanical movement in a series in the United States since the late 1960's. In addition to producing their own high-grade watches, RGM has been chosen by museums, note collectors, auction houses, and watch companies to service and restore rare and exclusive watches. To learn more about the variety of services that RGM offers, please visit www.rgmwatches.com.
